Registrar

Registrars have been appointed for each local area under Section 7 of the RBD Act, 1969 for registration of births and deaths occurred under their jurisdictional area. Registrars may belong to a municipality, Panchayat, Government health institution or other local authority appointed by the State Government.

Institutions

As per the registration of Births and Deaths Act, 1969 in respect of births and deaths in a hospital, health center, maternity or nursing home or other like institutions, responsibility of informing the events to the registrar...

Public

In case of Birth and Death, Citizen should inform about the event within 21 days to the registrar of their jurisdiction. In case Death, citizen should place Doctor's certificate in original form along with burial/cremation....

Compatible with updated version of Google Chrome & Mozilla Firefox.

**HARYANA GOVERNMENT
URBAN LOCAL BODIES DEPARTMENT
NOTIFICATION**

No. 24/2017-R II - The following draft of amendment in the Haryana Municipal Corporation Advertisements Bye-Laws, 2016 which the Government of Haryana proposes to make in exercise of the powers conferred by clause (1) of section 192 of the Haryana Municipal Corporation Act, 1994 (16 of 1994), is hereby published as required under section 193 of the said Act.

Notice is hereby given that the draft amendment shall be taken into consideration by the Government after the expiry of a period of seven days from the date of publication of this notification in the Official Gazette, and the suggestions, if any, which may be received by the Principal Secretary to Government, Haryana, Urban Local Bodies Department, Chandigarh from any person with respect to amend the following draft bye-laws, namely:—

Draft Bye-Laws

1. These bye-laws may be called the Haryana Municipal Corporation Advertisements (Amendment) Bye-Laws, 2016.
2. In the Haryana Municipal Corporation Advertisements Bye-Laws, 2016 (hereinafter called the "bye-laws")—
 - (i) after sub-clause (i), the following sub-clause shall be inserted, namely:—

"(i-a) 'acknowledgement OMD' shall mean a OMD that recognize a participant providing a road related service like maintenance of railing, median plantation, roundabout beautification";
 - (ii) after sub-clause (xi), the following sub-clause shall be inserted, namely:—

"(xi-a) 'ground OMD' shall mean an OMD detached from a building, erected or painted on temporary structure, screen and fence placed fixed on ground, visible to public for the purpose of self-advertisement";
 - (iii) after sub-clause (xv), the following sub-clause shall be inserted, namely:—

"(xv-a) 'marquee OMD' shall mean an OMD attached to or hung from a marquee, canopy, awning, or similar structure projecting from and supported by the building and extending beyond the boundary of the building";
 - (iv) after sub-clause (xxx), the following sub-clause shall be inserted, namely:—

"(xxx-a) 'unipole' means an OMD with large space for advertising in the form of an advertisement panel and where such panel is mounted on a single column with its foundation on the ground";
3. In the said bye-laws, for bye-law 3, the following bye-law shall be substituted, namely:—

"3 Registration:— (1) The owner/agency shall seek permission for installing an OMD from the Municipal Corporation by registering themselves with Municipal Corporation using online process as laid out in Annexure I.

(2) This registration is compulsory for owners/agencies who want to install OMD on their premises.

(3) Registration shall be valid for a period of six years from the date of registration.

(4) The registering entity shall deposit such registration fee, as the Government may decide, in advance, order, from time to time.

(5) Self Advertisers (SA) are exempted from registering themselves with Municipal Corporation subject to conditions stated at Schedule-I."
4. In the said bye-laws, in bye-law 6,—
 - (i) for clause (3), the following clause shall be substituted, namely:—

"(3) An approval shall be for a maximum period as set out below:—

 - (i) Type A and Type B: Equal to the agreement period between the concerned City/Urban Local Bodies and the concerned Agency, with maximum limit of 3 years;
 - (ii) Type C, Type D: 3 years;
 - (iii) Type E: As specified on case to case basis, with maximum limit of 3 years;
 - (iv) Type F: As specified on case to case basis, with maximum limit of 3 years;
 - (v) Type G/Self Advertising: no restriction;
 - (vi) Type H: As specified on case to case basis, with maximum limit of 3 years;
 - (vii) Type I: 3 years; and
 - (viii) Type J: 3 years."
 - (ii) after clause (8), the following clause shall be inserted, namely:—

"(8-a) All contractual agreements/ tenders for OMDs type and time period stated at clause (3) of bye-law 6 executed by Municipal Corporation shall be till end of calendar year i.e. the 31st December and new agreement/tender shall start from new calendar year i.e. the 1st January.

Note: 1. OMDs on private land/ property shall follow the said time lines.

2. All existing contract agreement ending between the calendar year may be extended with revised rates till end of the same calendar year to prevent revenue loss to Municipal Corporation as the new contract agreement to new agency shall be granted from new calendar year."
 5. In the said bye-laws, in bye-law 11, in clause (1), for sub-clauses "(viii), (ix) and (x)" the following sub-clauses shall be substituted, namely:—

"(viii) media device for hawkers on stationary kiosk or handcart; and

(ix) cycle rickshaws."
 6. In the said Bye-laws, in bye-law 12 in clause (1),—
 - (i) for the words "advertisements on" the word and sign "advertisement on/within" shall be substituted;
 - (ii) after sub-clause (i), the following sub-clauses shall be inserted, namely:—

"(i-a) residential sector, subject to conditions stated in Schedule-I";

"(i-b) National Highways, State Highways, subject to conditions stated in Schedule-I";
 7. In the said bye-laws, in bye-law 13, after clause (1), the following clauses shall be inserted, namely:—

"(2) The permission to put up advertisement on Municipal land/ properties shall be granted only after the successful completion of the tender process. The permission shall be granted on the basis of the lowest bid received in the tender process. The permission shall be granted for a town/city as a whole or in parts, as per the policy of E-tender. E-Auction shall be the mode of tendering. The time to time. No tender quoting the rates below the reserve price, as decided by the Municipal Corporation, shall be accepted."

City Project Officer
CMMU, Municipal Corporation
Yamuna Nagar-Jagadhri

Commissioner, Municipal Corporation, on including land on which advertisements shall be displayed the reserve price on the basis of the following, among other things:

- (i) location of the site;
- (ii) size of the advertisement board/banner;
- (iii) prevailing market rate;
- (iv) past revenue collection; and
- (v) number of sites.

Note: The E-Tendering, E-Auctioning shall be done as per instructions issued by Government from time to time.

(3) The advertisements rights shall be given for a period stated in bye-law 6. It shall be subject to annual notice. In the event of default of terms and condition of contract agreement, it shall be forfeited.

(4) Billboards, advertisements, banners for publicity of achievements, social welfare, etc., shall be subject to other development policies put up by Government Department/ Boards/ Corporations, as a condition precedent, purview of the contract. In addition to this, the allottee shall reserve 15% of the total advertising space in the said Government advertisements publicity. No fees/ revenue shall be payable to the licensee for such advertisements.

(5) In case the Government Department/ Board/ Corporation itself wants to install OMDs on its premises, the permission is required to be taken from Municipal Corporation and revenue generated by it shall be shared between the concerned Department and Municipal Corporation, as per mutual agreement. Further, the said Department/ Board/ Corporation shall ensure that only a registered entity shall be awarded the permission to install advertisement on its premises.

(6) The different Departments desirous of seeking advertisements for their land devices shall be subject to strict adherence to the provisions of this policy.

(7) The advertisement contract may exclude all BOT schemes (Build Operate Transfer) contracts awarded by various Departments like Transport for Bus shelters, areas maintained by HUDA/ HSIIDC, etc.

(8) The Municipal Corporation may also grant advertisement rights to organization in lieu of construction, operation and maintenance of civic amenities (street light, public toilets, tree guards, street furniture, etc.) on BOT (Build Operate Transfer) basis.

(9) In case of BOT arrangements, the concessionaire/ advertiser shall be responsible for the maintenance and running of the facility and advertisements shall not be permitted unless the facility is functional in all respects.

(10) In case, where OMD on Municipal Corporation/ Government Department land and other land (owned or not) in close proximity, then preference to OMD on Government land shall be given.

8. In the said bye-laws, in bye-law-14, for the word "dimensions", the word and sign "dimension" shall be substituted.

9. In the said bye-laws, in bye-law-15, after clause (5), the following clauses shall be inserted, namely:-

"(6) In case the registered entity uses environment friendly devices like Solar Photovoltaic Panel, environment friendly material, etc., in OMDs the Municipal Corporation, shall grant incentive of 5% in license fee.

(7) The Municipal Corporation shall prepare proposal for revising the license fee as per market conditions every year and send to the Government for approval."

10. In the said bye-laws, in bye-law-17:-

- (i) in clause (1), in the sub-clauses (ii) and (iii), for the word "an", the word "a" shall be substituted;
- (ii) in clause (2), for the word "as specified in the Act" the words "as the Government may specify, from time to time", shall be substituted;
- (iii) in clause (9), for the word "as specified in the Act", the words "as the Government may specify, from time to time" shall be substituted.

11. In the said bye-laws, in bye-law-22:-

- (i) for clause (1), the following clause shall be substituted, namely:-
"(1) Whoever contravenes any of the provisions of these bylaws, shall be liable to fine, penalty of three times the license fee, as the Government may specify, by an order, from time to time";
- (ii) in clause (3), for the word "specified under the Act", the words "the Government may specify, from time to time", shall be substituted.

12. In the said bye-laws, in Annexure 5, under columns Typology and Typology Description for the item "Billboards", against the following item and entries there against shall be substituted, namely:-

"D1 Unipoles, billboards, building boards, wall wraps, multiple OMDs, gastris"

13. In the said bye-laws, in Annexure 6, for serial number 5, the following serial number shall be substituted, namely:-

"5. The Promisee 1 of and Promisee 2 hereby further agree and undertake that they shall be jointly liable in any claim, penalty, litigation and liabilities made against them by the Municipal Corporation,

14. In the said bye-laws, for Schedule I, the following Schedule shall be substituted, namely:-

"Schedule 1

General Permission Criteria - Outdoor Media Devices (See bye-law - 3(5), 12(i-a) (xii) and 14)

1. Traffic Hazard Potential Dependencies

- (1) The traffic hazard potential of an OMD depends on its:
 - (i) Site Location: OMD's location from the road which is measured in terms of its displacement from the edge of the road. The hazard generally diminishes the further the device is away from the road.
 - (ii) Size of the OMD.
 - (iii) Luminance level of the OMD, and
 - (iv) Background and other such related issues.
- (2) An advertising device may be considered a traffic hazard, if it interferes with road traffic in any of the following ways:
 - (i) If it interferes with the effectiveness of a traffic control device (e.g. traffic light or stop sign).
 - (ii) Distracts a driver at a critical time (e.g. making a decision at an intersection).
 - (iii) Obscures a driver's view of a road hazard (e.g. at corners or bends in the road).
 - (iv) Gives instructions to traffic to "stop", "halt" or other (e.g. give way or merge).
 - (v) Limits a traffic control device.
 - (vi) Is a dangerous obstruction to road or other infrastructure, traffic, pedestrian or other road users.

- users
- (ii) If in an area where there are several devices and the visual environment is potentially hazardous
 - (viii) If situated at locations where the demands on drivers' concentration due to such as at major intersections or merging and diverging lanes
 - (ix) If it violates the building bye-laws of Municipal Corporation
- (3) Besides aforesaid, additional driver attention and decision making are required at the following locations:
- (i) high speed diverging, merging or weaving at an intersection such as at a "Y" intersection and at speed roundabouts;
 - (ii) in the vicinity of intersections where through lanes merge and where vehicles are required to merge at higher speeds (e.g. where "trap lanes" are created on the approaches to, or at, roundabouts) and where a divided motorway becomes a two-way road;
 - (iii) intersections or sections of road which, because of lane configuration or geometry, may require an increased level of driver concentration (e.g. five-way intersections, back to back horizontal curves on the outside curve of a divided road where advertising is directed towards the road);
 - (iv) sections of road displaying traffic signals, directional signage, regulatory signs, etc., which are more complex than would normally be expected (at these intersections, it would be expected that the required reading and interpretation period of the traffic control devices would be significantly longer);
 - (v) sections of road that have a vehicle crash history higher than the system average
 - (vi) pedestrian crossing facilities; and
 - (vii) schools, hospitals.

2. OMD Location Selection Criteria

- (1) The site selection criteria comprise of:
- (i) the lateral placement of OMDs (which influences the hazard potential for the driver, the effectiveness of official traffic signs) and
 - (ii) the longitudinal placement of OMDs (driver distraction control) relative to designated traffic situations and official traffic signs, road features and other OMDs (which influences sight distance and driver distraction).
- (2) Lateral Placement
- (i) Advertising is not permitted in medians because these areas are set aside for important traffic control devices.
 - (ii) OMDs shall not be permitted on traffic islands.
 - (iii) Where carriageways diverge so much that oncoming traffic is not visible due to topography or dense vegetation.
- (3) Longitudinal Placement (Driver Distraction Controls)
- (i) Longitudinal placement set out minimum distances between the OMDs and traffic conflict points (official traffic signs and other OMDs (i.e. reduce advertising density)).
 - (ii) To facilitate the smooth flow of the traffic and to avoid any traffic hazard caused by the placement of OMDs following shall be followed while finalizing longitudinal placement of any device. The distance for placement of OMD shall be measured from main carriageway or the edge of the junction, intersection, roundabouts etc.

(4) Lateral and Longitudinal - Site Selection Criteria

(i) Lateral Criteria

Site Selection Criteria for Lateral Placement of OMDs			
	Width (W) of Road including the ROW	Minimum Lateral Straight Clear Distance from the ROW of road to OMD	Curve Factor (In case there is curve on road)
	1	2	3
(i)	W	$1/3^{rd}$ of W	1.5
e.g.	60 metres	$1/3 \times 60 = 20$ metres	1.5

a. In case the ROW of municipal road is less than 20 metres, OMD shall be placed in the clear distance from the edge of the road to the ROW of road and its size is restricted to portrait stated in clause 10 of bye-laws.

b. The lateral distance stated above is clear distance from edge of the road to the ROW of road and in no case any part of OMD shall project over the ROW.

(ii) Longitudinal Criteria

Site Selection Criteria for Longitudinal Placement of OMDs		
Minimum Longitudinal Straight Clear Distance between two OMDs along the road for notified speed upto 50 Km/ Hr	Speed Factor (In case notified speed of road is higher than 50 Km/ Hr)	Minimum Longitudinal Straight Clear Distance between two OMDs along the road (In case notified speed is higher than 50 km/ Hr)
(i) 150 metres	i. 60 Km/ Hr = 1.2 ii. 80 Km/ Hr = 1.5 iii. 100 Km/ Hr = 1.8	i. 150 x 1.2 = 180 metres ii. 150 x 1.5 = 225 metres iii. 150 x 1.8 = 270 metres

(iii) OMDs are not permitted within 75 metres of any road junction, traffic signal, pedestrian crossing, etc. The distance will be measured from the edge of the road and not the centre of the road.

- (v) OMDs shall not be placed within 7.5 metres of the edge of the carriageway.
- (vi) OMDs are not permitted on a round-about of diameter less than 100 metres measured from the edge width of the round-about (including the carriageway).
- (vii) OMDs on round-about of diameter 100 metres and above measured from the edge width of the round-about (including the carriageway) are permitted at clear distance of 10 metres from the edge of the carriageway.
- (viii) Where lateral placement requirements and driver distraction requirements are provided for in a particular restriction distance, the greater value shall be used.
- (ix) When two (2) OMDs, located together, are different in their general design, the driver distraction potential shall be determined considering both designs simultaneously.
- (x) For maintaining exclusivity between 2 OMDs at different times, the distance between the OMDs shall not be less than 150 metres.
- (xi) If an OMD is visible from more than one road or type of road (such as a highway or motorway, standard road and a ramp or other road) the restrictions applicable to each road or type of road the OMD is visible from, shall be assessed.
- (53) Physical characteristics of OMDs
- (i) The application of control on physical characteristics is intended to minimize driver distraction. Control of the physical characteristics of Outdoor Advertising Displays shall include the following:
- Size and shape
 - Colour
 - Illumination and Luminance
 - Movement and Rotation
 - OMD Content
- (ii) Size and Shape
- OMDs shall not use shapes that could potentially result in an OMD being mistaken for the effectiveness of official traffic signs.
 - The Code of Practice for Road Signs IRC:67-2001, by Indian Road Congress prescribes the basic design parameters of official traffic signs and includes standard colour background colour combinations.
- (iii) Colour
- OMDs shall not use colour combinations that could potentially result in being mistaken for an official traffic sign.
 - The Code of Practice for Road Signs IRC:67-2001, by Indian Road Congress prescribes the basic design parameters of official traffic signs and includes standard colour background colour combinations.
- (iv) Illumination and Luminance
- OMD shall not contain flashing red, blue or amber point light sources which when viewed from the road, could give the appearance of an emergency service or other special purpose vehicle warning light's.
 - All lighting associated with the OMD shall be directed solely on the OMD and its immediate surroundings.
 - External illumination sources shall be shielded to ensure that external lighting is not directed at approaching motorists.
 - Illumination of OMD is to be concealed or be integral part of it.
 - Up-lighting/upward pointing of the device shall not be allowed. Any external lighting is to be downward pointing and focused directly on the OMD to prevent or minimize the escape of light beyond OMD.
 - Any light source shall be shielded so that glare does not extend beyond the OMD.
 - Non-static illuminated OMDs (flashing lights) are not permitted.
 - The average maintained luminance shall be reduced to 0.5 candelas at all together shut after 2300 hours (11 P.M) and sunrise by automatic timing devices or as specified by Municipal Corporation from time to time.
 - OMDs containing retro-reflective material shall be rotated approximately 2 degrees away from the normal line of vehicle headlight beams in order to minimize specular reflection.
- (v) Movement and Rotation
- Moving displays cause a statistically significant distractive influence on motorist's response times to external stimuli. Moving, rotating or variable message OMDs are permitted only in market place, parking spaces and other public spaces, where there is only pedestrian movement. In no case such advertisements shall be permitted towards vehicular traffic (except advertisements pasted on public transport vehicles only). OMDs on any motor vehicles or other advertising shall not be permitted.
 - This permission criterion is not intended to apply to variable message displays used by local authorities for traffic management information. Variable message displays used at the same or similar places where messages are directed at, and intended for, pedestrians are not excluded.
- (vi) Advertising Device Content
- The Municipal Corporation will generally rely upon self-regulating controls within the Advertising industry to enforce minimum Advertising standards. Notwithstanding this, if the Municipal Corporation may take action to modify or remove any advertisement on the OMD that contravene the Advertising Industry's Code of Ethics, (refer List of Non-Permitted Advertisements provided in sub-rule 12(3)) or that otherwise causes a traffic hazard.
- (vii) Legibility
- For all categories of OMDs (other than OMDs which are directed at pedestrians only), an OMD face should be easily discernible to traveling motorists. The OMD should not cause distraction. Additionally, a sign shall be quickly and easily interpreted.

City Project Officer
CMMU, Municipal Corporation
Yamuna Nagar-Jagadhri

required advertising message to the viewer and reduce the period of distraction.

The content or graphic layout exhibited on OMD panel shall not contain any illegible or intricate typefaces and have letters styles that are appropriate. OMDs shall not contain any device contain information in text sizes which would necessitate the driver of a motor vehicle to stop, read and/or note down, which is detrimental to the smooth flow of traffic and distracting for the driver.

All OMDs shall be so designed as to maintain a proportion where the advertisement does not appear to occupy more than 20% of the OMD area implied by the Municipal Corporation.

3. Installation, Operations and Maintenance Development Criteria

(1) The following criteria shall also apply:

- (i) Safe access shall be available to the OMD for erection, maintenance and alteration measures.
- (ii) The OMD and surrounding areas shall be kept in a clean and tidy condition.
- (iii) Unauthorized clearing, trimming, staking and burning off or otherwise removal of trees and vegetation is not permitted.
- (iv) Apart from accommodating vehicular and pedestrian traffic, road reserve shall not be used for services such as power, telecommunications, gas, storm water, waste water, etc. The location of these services is known by other agencies with their own responsibility.
- (v) Municipal Corporation does not know the accurate location of all underground services. It is the responsibility of the owner to co-ordinate, inform and communicate to relevant authorities before any excavation or fabrication on site work is to be undertaken. Any liability, delay or accident that may occur is the responsibility of the owner and in no way Municipal Corporation would be held responsible. The owner shall negotiate or waive off any of the conditions set in the agreement or these may be subject to the agreement.
- (vi) OMD owners are solely responsible for ensuring that during erection, maintenance, alteration and operation of an OMD, the device does not conflict with services or other facilities within the road reserve.
- (vii) Municipal Corporation may ask the owner to either replace or altogether remove any OMD which is found to be the work undertaken by utility services such as power, telecommunications, gas, storm water, waste water, supply and sewerage, or for road widening.

4. Structure

- (1) OMD structures devices shall be certified by a Structural Engineer practicing in the field of structural engineering. This requirement is not applicable to specific instances where the OMD is in the form of Advertisement posted directly to the surface of a structure e.g. posted sticker on a vehicle.
- (2) This certification confers compliance of the design with relevant Indian Structural Design Standards, Codes of practice and conditions of this guide. The foundations shall be designed and checked for extreme wind conditions, earthquakes, soil bearing capacity etc.
- (3) The supporting structure shall have a non-reflective finish to prevent glare.
- (4) The OMD structure shall be well maintained. It shall be painted in colours that are consistent with and enhance the surrounding area.
- (5) Official road furniture such as official signs and delineator guide posts shall not be used as the supporting structure of an OMD.
- (6) The name of the OMD license holder, Number of license, media device identification number etc. shall be placed in a conspicuous position on the OMD as may be notified by Municipal Corporation from time to time.

5. Electrical Connections

- (1) Electrical connections to OMDs shall meet relevant Indian Standards.
- (2) Electrical connections to OMDs shall be designed to ensure there is no safety or fire risk.
- (3) Electrical connections to OMDs shall be designed to be safe in the event of accidental knock down.
- (4) The registered entity is the power consumer and shall make application for power connection, electricity connection from the respective electricity distribution company for the purpose of the OMD, and name, for which Municipal Corporation concerned land owning agency would provide necessary information certificate on the owner's request.
- (5) Any charges for power connection and supply shall be incurred directly by the registered entity. A copy of the electricity supplier's letter of acceptance/billing arrangement shall be submitted to Municipal Corporation.
- (6) The electrical installation work shall be performed by a licensed electrical worker in accordance with the relevant Electricity Regulation and the Wiring Rules and the relevant electricity supplier's requirements.
- (7) Adequate insulation and protection equipment and procedures shall be in place to protect maintenance and service personnel working on either the OMD or the road lighting circuit. For earthing a separate earth electrode shall be used, and active and neutral conductors shall be used only for supply from the OMD.
- (8) A sketch plan shall be submitted to Government Authority showing the location of the OMD, its structure, being drawn along with position of various other ancillary requirements, duly signed by a registered engineer practicing in same field.
- (9) A copy of the electrical contractor's test certificate shall be provided to Municipal Corporation. The switching device shall be of a type approved by the electricity supplier. Electrical components shall accord with relevant Indian Standards.

6. Miscellaneous

- (1) OMDs involving communication through sound, smell, etc. are not permitted.
- (2) No generator running on diesel/ petrol/ kerosene or any bio fuel, causing noise, air or water pollution would be allowed for providing power for illumination of any OMD.

Welcome to Web Site of Haryana Land Records...

LAND RECORDS

HARYANA

India.gov.in

Total Visitors: 1715376

हरियाणा सरकार

The Revenue Department, Haryana is using Information Technology (IT) to update land records. This website has been developed to help people to access official land record of Haryana such as Registration, Mutation and Jamabandi. People can now view details of sanctioned mutations and jamabandi of any land in Haryana using Owner name, khewat number and khasra numbers. This site also provides information about property registration and necessary documents required for it. The knowledge base to educate people about revenue terminology is also available.

Suggestions to improve the site may be send to concerned Deputy Commissioners or emailed to Financial Commissioner Revenue (FCR) at fcr@hry.nic.in

Site Optimized For Internet Explorer 6.0 And Above. Better Viewed In 800 X 600 Resolution.
Site Designed, Developed & Maintained By National Informatics Centre, Haryana State Centre, Chandigarh.
Site Contents Belongs To Haryana Government. NIC Does Not Take Responsibility Of Contents And Data.

Work Order

To,

B.M. Varma & Co.
Chartered Accountants
S.C.O. 80-81, Sector-17 C
Chandigarh
Memo No. 9911/Acctt

Dated 26/9/19

Subject:-

Engagement of Chartered Accountant firm for Maintenance of Accounts on Double Entry System for the year 2016-17

This is in reference to your application no nil dated 13.06.2017 on the subject cited above.

Your Firm has been engaged for performing the following work on rate quoted by you inclusive of all Taxes i.e. 34,500/- for the year 2016-17:-

1. Preparation of books of accounts (Main Cash Book, Day Book, Grant Cash Book, Ledgers, Stock Registers, Assets Registers etc) on Double Entry Accrual Basis System for the period from 01.04.2016 to 31.03.2017.
2. Preparation of monthly Bank reconciliation statements of all the bank accounts of Municipal Corporation, Yamuna Nagar- Jagadhri for the period from 01.04.2016 to 31.03.2017.
3. Preparation of Balance Sheet, Receipt & Payments Account, Income & Expenditure Account for the year 2016-17 from the record entries maintained in books of accounts of the Municipal Corporation, Yamuna Nagar-Jagadhri.

Term & Conditions:-

1. The accrual based Double Entry Accounting System would be based upon the system of Institute of Chartered Accountants of India as already followed upto the year 2016-17 and any amendments made thereof.
2. The work of consolidation of record entries and preparation of Balance Sheets for the year 2016-17 will be finalized within a period of 4 months from the date of issue of the work order failing which penalty @ Rs.500/- per day shall be imposed after the completion of the period till the default continues. However the CMC in case of exceptional circumstances may extend the time period & waive the penalty whatsoever.
3. Payment will only be released subject to the satisfaction of the undersigned committee constituted by the undersigned after verifying the quality and quantity of the work.
